

LIFESAVING SOCIETY®

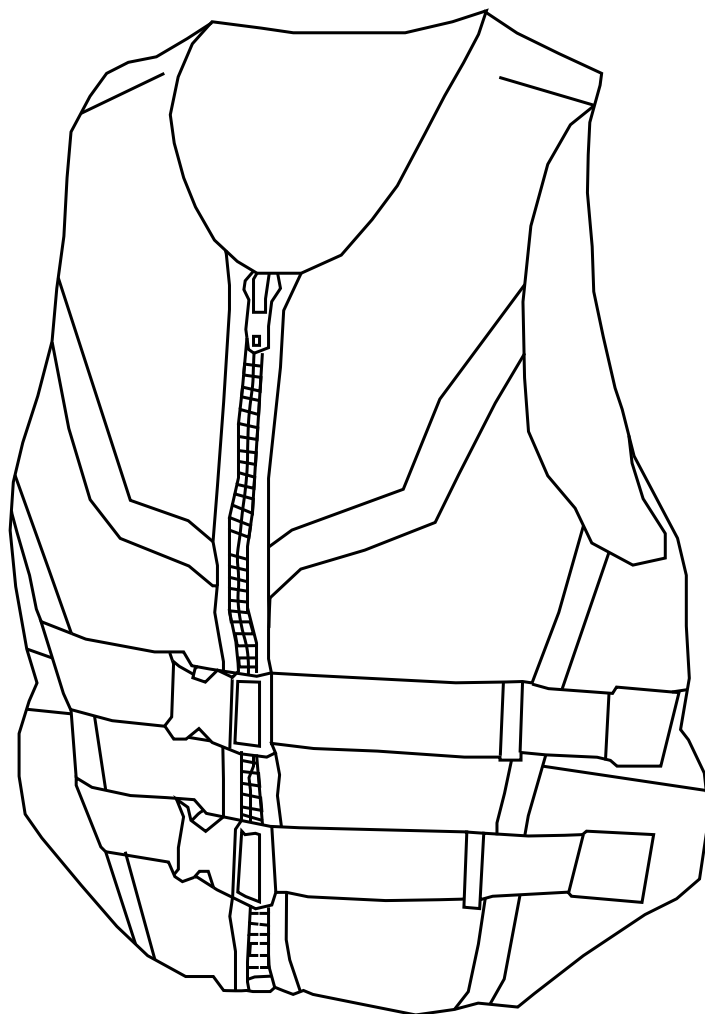

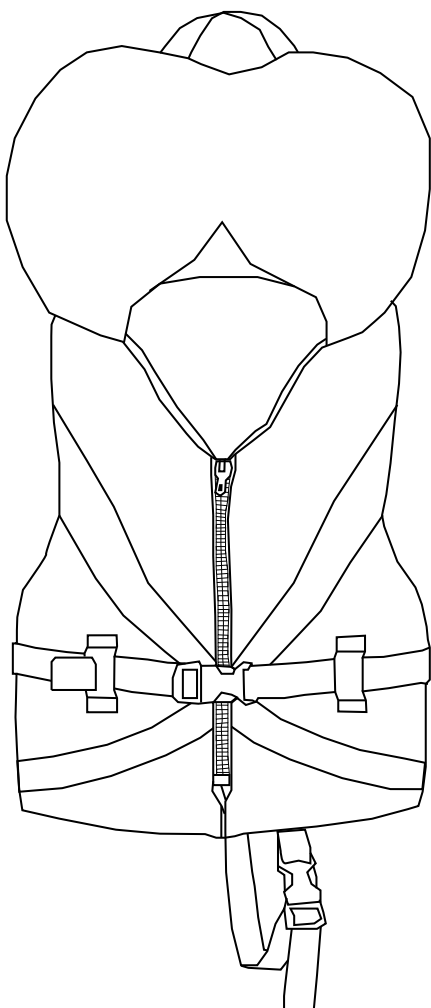

The Lifeguarding Experts

2025 Water Smart® Colouring Contest

(5 years and under)

Lifejackets help you float, keep your face out of the water and keep you warm in cold water. Everyone should wear a lifejacket on a boat. Brightly coloured lifejackets allow you to be seen. Red, orange and yellow lifejackets are the easiest colours to see in water.

Colour the child and adult lifejackets in bright colours.

Choose it. Use it.

Share your art with us by tagging Lifesaving Society Ontario on social media **#WaterSmart** or take a photo of your art and email it to watersmart@lifeguarding.com.
